200 questions based on the Grade 11 Web Design and Development Student Module

Module I: Operate Personal Computer & Web Careers

1. Which professional is responsible for the "client-side" of web development, ensuring the visual elements and interactive features work for the user?

A. Back-End Developer

B. Front-End Developer

C. Database Administrator

D. Network Administrator

2. A professional who possesses skills in both front-end and back-end development is known as a:

A. Full-Stack Developer

B. Web Master

C. UX Designer

D. System Analyst

3. Which of the following is NOT a typical responsibility of a Back-End Developer?

A. Managing databases

B. Server-side logic

C. Designing the user interface colors and fonts

D. API integration

4. In the context of computer generations, the First Generation of computers (1940-1959) relied on which technology?

A. Transistors

B. Integrated Circuits

C. Vacuum Tubes

D. Microprocessors

5. Which of the following is considered an Input device?

A. Monitor

B. Webcam

C. Speaker

D. Projector

6. The physical component that connects all other internal components of a computer (CPU, RAM, drives) is called the:

A. Hard Drive

B. Motherboard

C. Power Supply Unit

D. Expansion Card

7. Which port is currently the dominating standard for connecting external devices like mice, keyboards, and flash drives?

A. PS/2

B. VGA

C. USB

D. Parallel Port

8. What does GPU stand for?

A. General Processing Unit

B. Graphics Processing Unit

C. Global Positioning Unit

D. Graphical Peripheral Unit

9. Which type of memory is volatile, meaning it loses data when the computer is turned off?

A. ROM

B. Hard Disk

C. Flash Drive

D. RAM

10. The measure of how consistently and accurately a computer system performs its functions is called:

A. Scalability

B. Reliability

C. Versatility

D. Automation

11. Which cable is primarily used to transmit high-quality audio and video signals to external displays?

A. Ethernet

B. USB

C. HDMI

D. PS/2

12. What is the primary function of an Operating System (OS)?

A. To scan for viruses

B. To manage hardware and software resources

C. To create word documents

D. To browse the internet

13. Which of the following is an example of a "Cold Boot"?

A. Restarting the computer via the Start menu

B. Pressing Ctrl+Alt+Del

C. Turning on a computer that has been completely powered off

D. Waking a computer from Sleep mode

14. Electrostatic Discharge (ESD) can damage computer components. Which tool helps prevent this?

A. Anti-static wrist strap

B. Screwdriver

C. Wire cutter

D. Compressed air

15. Which type of fire extinguisher is generally recommended for electrical fires (like computer equipment)?

A. Water

B. Carbon Dioxide (CO2)

C. Foam

D. Wet Chemical

16. When disposing of old computer equipment, what is the most environmentally responsible action?

A. Throw it in the regular trash

B. Burn it

C. Bury it in the backyard

D. Send it to an authorized e-waste recycler

17. Which key on the keyboard is typically used to capture a screenshot of the current screen?

A. Scroll Lock

B. Print Screen

C. Pause/Break

D. Insert

18. The file extension `.exe` typically denotes what type of file?

A. An image file

B. A text document

C. An executable program application

D. A web page

19. To permanently delete a file without sending it to the Recycle Bin in Windows, which shortcut key combination is used?

A. Ctrl + Delete

B. Alt + Delete

C. Shift + Delete

D. Fn + Delete

20. Which utility tool is used to rearrange fragmented data on a hard drive to work more efficiently?

A. Disk Cleanup

B. Disk Defragmenter

C. Task Manager

D. Device Manager

Module II: Access and Analyze Online Information

21. The global network of interconnected computers is known as:

A. The Web

B. The Internet

C. An Intranet

D. A LAN

22. Who is credited with inventing the World Wide Web (WWW)?

A. Bill Gates

B. Steve Jobs

C. Tim Berners-Lee

D. Mark Zuckerberg

23. What does "HTTP" stand for?

A. HyperText Transfer Protocol

B. High Transfer Text Protocol

C. Hyperlink Text Transfer Program

D. Home Text Type Protocol

24. In the URL `https://www.moe.gov.et`, what does `.et` represent?

A. A generic top-level domain

B. A country code top-level domain (ccTLD)

C. A subdomain

D. A protocol

25. Which of the following is an example of a web browser?

A. Google

B. Windows

C. Mozilla Firefox

D. Gmail

26. What is the function of the DNS (Domain Name System)?

A. It scans for viruses.

B. It translates human-readable domain names into IP addresses.

C. It formats the HTML code.

D. It speeds up internet download speeds.

27. "HTTPS" indicates that the communication between the browser and the website is:

A. Faster

B. Free

C. Encrypted and Secure

D. Open Source

28. Which component of a URL comes *before* the domain name (e.g., in `mail.google.com`, the "mail" part)?

A. TLD

B. Protocol

C. Subdomain

D. Path

29. A website that displays the exact same content to every visitor and does not update automatically is called:

A. A Dynamic Website

B. A Static Website

C. A Web Application

D. A Responsive Site

30. Which Boolean operator would you use to *exclude* a specific term from your search results?

A. AND

B. OR

C. NOT

D. WITH

31. In Google Search, putting a phrase inside quotation marks (e.g., "climate change") tells the search engine to:

A. Search for synonyms

B. Search for the exact phrase

C. Exclude those words

D. Search for images only

32. What does the acronym CRAAP stand for when evaluating information sources?

A. Currency, Relevance, Authority, Accuracy, Purpose

B. Content, Reliability, Author, Audience, Page

C. Creation, Rating, Age, Author, Place

D. Credibility, Reason, Authority, Accuracy, Popularity

33. "Phishing" refers to:

A. A method of cooling a computer.

B. Fraudulent attempts to obtain sensitive information by disguising as a trustworthy entity.

C. Connecting to a fish-finding application.

D. Deleting files from the recycle bin.

34. Which of the following is a characteristic of a strong password?

A. Using your birthdate

B. Using "123456"

C. Using a mix of uppercase, lowercase, numbers, and symbols

D. Using your pet's name

35. Two-Factor Authentication (2FA) adds security by:

A. Requiring two different passwords.

B. Requiring a password plus a second form of verification (like a code sent to a phone).

C. Asking for your password twice.

D. Changing your password every 2 days.

36. Which software is specifically designed to detect and remove malicious software like viruses?

A. Firewall

B. Antivirus

C. Spreadsheet

D. Database

37. When collaborating online, which tool is best suited for real-time video meetings?

A. Microsoft Word

B. Zoom

C. Notepad

D. Adobe Photoshop

38. "Netiquette" refers to:

A. The speed of the internet.

B. The proper way to connect cables.

C. The rules of polite and correct behavior on the internet.

D. The cost of internet service.

39. In an email, the "Bcc" field stands for:

A. Blind Carbon Copy

B. Back Carbon Copy

C. Basic Carbon Copy

D. Bulk Copy Content

40. Which of the following is considered "Malware"?

A. Trojan Horse

B. Worm

C. Spyware

D. All of the above

41. Cloud computing allows users to:

A. Cool down their CPU.

B. Store and access data and programs over the internet.

C. Print without a printer.

D. Use a computer without electricity.

42. A "cookie" in web browsing is:

A. A virus.

B. A small text file stored on your computer by a website to remember settings/activity.

C. A type of hardware.

D. A browser theme.

43. Which keyboard shortcut opens a new tab in most web browsers?

A. Ctrl + N

B. Ctrl + T

C. Ctrl + W

D. Ctrl + O

44. Google Drive, OneDrive, and Dropbox are examples of:

A. Operating Systems

B. Cloud Storage Services

C. Web Browsers

D. Antivirus Software

45. Which protocol is used for sending emails?

A. HTTP

B. FTP

C. SMTP

D. HTML

46. Copyright laws protect:

A. The privacy of individuals.

B. The original works of authorship (art, music, writing).

C. Computer hardware from breaking.

D. Passwords from being stolen.

47. Plagiarism is defined as:

A. Creating original content.

B. Using someone else's work and presenting it as your own.

C. Citing sources correctly.

D. Backing up your data.

48. Which of the following is a social engineering attack?

A. A power surge.

B. Pretexting (creating a fabricated scenario to steal info).

C. A hard drive failure.

D. An overheated CPU.

49. "Incognito Mode" or "Private Browsing" prevents the browser from saving:

A. Your browsing history and cookies.

B. Files you download to your hard drive.

C. Your identity from your ISP.

D. Viruses from entering the computer.

50. What is a "Bookmark" in a web browser?

A. A virus definition file.

B. A saved shortcut to a specific webpage.

C. A type of font.

D. An error message.

Module III: Professional Ethics

51. "Professionalism" is best defined as:

A. Wearing a suit every day.

B. The conduct, behavior, and attitude of someone in a work environment.

C. Knowing how to fix computers.

D. Earning a high salary.

52. Which of the following is NOT a characteristic of a professional employee?

A. Reliability

B. Accountability

C. Frequent tardiness (lateness)

D. Respectfulness

53. "Ethics" is the study of:

A. Computer hardware.

B. What is good, evil, right, and wrong in human conduct.

C. The laws of physics.

D. Financial accounting.

54. Being "punctual" means:

A. Being strictly observant of an appointed time (being on time).

B. Being honest.

C. Being skilled at your job.

D. Being friendly.

55. "Integrity" in the workplace means:

A. Doing the right thing only when the boss is watching.

B. Adhering to moral and ethical principles consistently.

C. Integrating software systems.

D. Working faster than everyone else.

56. A "Code of Conduct" generally contains:

A. A list of computer passwords.

B. Specific rules for employee actions and behavior.

C. A tutorial on how to code HTML.

D. The company's financial records.

57. Which type of Code of Ethics is based on clear-cut rules and penalties for violations?

A. Value-Based

B. Compliance-Based

C. Moral-Based

D. Social-Based

58. "Whistleblowing" (reporting unethical behavior) usually requires mechanisms to protect the employee from:

A. Promotion

B. Retaliation or reprimand

C. A salary increase

D. Training

59. Which of the following is an example of unethical behavior in the workplace?

A. Nepotism (favoring relatives).

B. Taking credit for others' work.

C. Embezzlement (theft of funds).

D. All of the above.

60. "Impartiality" means:

A. Treating everyone equally without discrimination.

B. Ignoring the rules.

C. Only helping your friends.

D. Working part-time.

61. "Confidentiality" requires a professional to:

A. Share all information with the public.

B. Keep sensitive information secret and secure.

C. Post client details on social media.

D. Gossip about coworkers.

62. "Soft skills" include attributes such as:

A. Coding in Java.

B. Repairing hardware.

C. Teamwork, communication, and problem-solving.

D. Typing speed.

63. Which ethical framework focuses on the "greatest good for the greatest number" of people?

A. Deontology

B. Utilitarianism

C. Virtue Ethics

D. Egoism

64. "Deontology" is an ethical theory based on:

A. Consequences.

B. Rules and duties (universal moral laws).

C. Character.

D. Happiness.

65. The concept of "accountability" implies:

A. Taking responsibility for your actions and decisions.

B. Counting inventory.

C. Blaming others when things go wrong.

D. Avoiding difficult tasks.

66. Employability skills are also often referred to as:

A. Hard skills.

B. Technical skills.

C. Transferable or job-readiness skills.

D. Temporary skills.

67. Which of the following helps improve an organization's ethical climate?

A. Ignoring bad behavior.

B. Leaders acting as role models for ethical behavior.

C. Keeping the code of ethics secret.

D. Punishing ethical acts.

68. "Transparency" in a professional setting embodies:

A. Honesty and open communication.

B. Wearing invisible clothes.

C. Hiding mistakes.

D. Making decisions in secret.

69. A "Conflict of Interest" occurs when:

A. Two employees argue.

B. Personal interests interfere with professional duties.

C. The internet connection is slow.

D. You dislike your job.

70. The first step in ethical decision-making is usually to:

A. Ignore the problem.

B. Identify the relevant facts and the ethical issue.

C. Make a guess.

D. Ask a friend to decide for you.

General Knowledge / Mixed Modules

71. Which device converts digital signals to analog signals and vice versa to allow internet access over phone lines?

A. Router

B. Modem

C. Switch

D. Hub

72. What is the shortcut to "Undo" an action in Windows?

A. Ctrl + Z

B. Ctrl + Y

C. Ctrl + X

D. Ctrl + U

73. In web development, "UX" stands for:

A. User Xylophone

B. User Experience

C. Unified Exchange

D. Underlying Xenon

74. The "S" in the 5S methodology stands for Sort, Set in order, Shine, Standardize, and:

A. Sleep

B. Sustain

C. Speed

D. Safety

75. Which generation of computers introduced the Microprocessor?

A. First

B. Second

C. Third

D. Fourth

76. Which file format is commonly used for portable documents that look the same on any device?

A. .docx

B. .html

C. .pdf

D. .txt

77. A "Firewall" is used to:

A. Cool the computer.

B. Monitor and control incoming and outgoing network traffic.

C. Speed up the hard drive.

D. Organize files.

78. What is the purpose of "Disk Cleanup"?

A. To physically clean the disk with a cloth.

B. To remove unnecessary files to free up space.

C. To install new drivers.

D. To formatting the text.

79. Which port transmits both high-definition video and audio?

A. VGA

B. DVI

C. HDMI

D. Serial

80. The "brain" of the computer is the:

A. Hard Drive

B. CPU (Central Processing Unit)

C. RAM

D. Monitor

81. "GUI" stands for:

A. Graphical User Interface

B. Global User Internet

C. General Utility Interface

D. Gaming User Input

82. Which of the following is system software?

A. Microsoft Word

B. Google Chrome

C. Windows 10

D. Angry Birds

83. In the context of ethics, "Golden Rule" usually refers to:

A. Making as much money as possible.

B. Treating others the way you would like to be treated.

C. The person with the gold makes the rules.

D. Never being late.

84. What is "Ransomware"?

A. Free software.

B. Malware that locks your data and demands payment to release it.

C. Software to protect against theft.

D. A backup tool.

85. "CC" in an email stands for:

A. Carbon Copy

B. Computer Copy

C. Contact Copy

D. Correct Copy

86. Which is NOT a valid IP address version?

A. IPv4

B. IPv5

C. IPv6

D. None of the above (IPv5 was experimental and not widely deployed)

87. The "Lock" icon next to a URL in a browser indicates:

A. The site is closed.

B. The connection is secure (HTTPS).

C. You need a password to enter.

D. The site is malicious.

88. "Open Source" software means:

A. The software is free.

B. The source code is available for anyone to inspect, modify, and enhance.

C. The software has no security.

D. The software is only for opening files.

89. Which command is used to check connectivity between your computer and a server?

A. ipconfig

B. ping

C. echo

D. connect

90. What is the function of an "Output Device"?

A. To send data into the computer.

B. To process data.

C. To display or present the results of processing to the user.

D. To store data.

91. A Terabyte (TB) is approximately:

A. 1000 Megabytes

B. 1000 Gigabytes

C. 1000 Kilobytes

D. 1000 Bytes

92. Which of the following is a "Search Operator"?

A. site:

B. find:

C. look:

D. get:

93. "Spam" refers to:

A. A virus.

B. Unsolicited, junk email.

C. A type of canned meat.

D. A fast processor.

94. The specialized software that allows the OS to communicate with a specific hardware device is called a:

A. Application

B. Driver

C. Kernel

D. Patch

95. "Ergonomics" in the workplace is concerned with:

A. The cost of equipment.

B. Designing the workspace to fit the user and prevent injury.

C. The speed of the internet.

D. The software used.

96. Which of these is a secondary storage device?

A. RAM

B. Cache

C. Hard Disk Drive (HDD)

D. Registers

97. "IoT" stands for:

A. Internet of Technology

B. Input of Text

C. Internet of Things

D. Internal Office Tools

98. Which of the following is considered a "Strong Work Ethic"?

A. Doing the bare minimum.

B. Depending on others to finish your tasks.

C. Dependability and dedication to the job.

D. Complaining frequently.

99. "Digital Footprint" refers to:

A. The physical weight of your computer.

B. The trail of data you leave behind while using the internet.

C. A type of scanner.

D. The size of your monitor.

100. What is the main difference between RAM and ROM?

A. RAM is read-only, ROM is read-write.

B. RAM is volatile, ROM is non-volatile.

C. RAM is permanent, ROM is temporary.

D. There is no difference.

101. Which of the following is a career pathway in web development?

A. Front-End Developer

B. Back-End Developer

C. Full-Stack Developer

D. All of the above

102. "Responsiveness" in professional ethics means:

A. Responding to emails within 1 minute.

B. The ability to react quickly and satisfy the needs of clients/public.

C. Being responsible for money.

D. Installing software.

103. A "Patch" in software is:

A. A piece of cloth.

B. A software update designed to fix problems or security vulnerabilities.

C. A new computer virus.

D. A type of cable.

104. "Skimming" is a method of identity theft that involves:

A. Reading emails quickly.

B. Using a device to steal credit card information from a card reader.

C. Stealing trash.

D. Hacking a database.

105. "Social Engineering" relies primarily on:

A. Advanced coding skills.

B. Brute force attacks.

C. Manipulating human psychology/trust.

D. Hardware failure.

106. Which domain extension is reserved for educational institutions?

A. .com

B. .net

C. .edu

D. .org

107. The process of restarting a computer is known as:

A. Booting

B. Hibernating

C. Loading

D. Compiling

108. "Bandwidth" refers to:

A. The physical width of a cable.

B. The maximum amount of data that can be transmitted over an internet connection in a given time.

C. The weight of the router.

D. The number of bands on a resistor.

109. Which principle suggests "Decisions should be based on objective criteria rather than bias"?

A. Loyalty

B. Impartiality

C. Confidentiality

D. Secrecy

110. A "Scanner" is an example of an:

A. Input Device

B. Output Device

C. Storage Device

D. Processing Device

Matching Questions (111-120)

Match the Computer/Web Term (Column A) with its Definition (Column B).**

Column A	**Column B**
111. CPU	A. A specific address of a resource on the web.
112. URL	B. Software that manages computer hardware and software resources.
113. OS	C. The "brain" of the computer that performs instructions.
114. SSD	D. A storage device that uses flash memory and has no moving parts.

115. ISP E. A company that provides access to the Internet.

Module IV - Build Web Pages Using HTML5 (Questions 116-145)

116. What does HTML stand for?

A. Hyper Text Makeup Language

B. Hyper Text Markup Language

C. Hyper Tech Markup Language

D. Home Tool Markup Language

117. Which tag is used to define the main root of an HTML document?

A. <body>

B. <head>

C. <html>

D. <root>

118. Analyze the Code:

html

```
<ol type="I">
<li>Coffee</li>
<li>Tea</li>
</ol>
```

What will be the output of the list items?

A. 1. Coffee, 2. Tea

B. A. Coffee, B. Tea

C. I. Coffee, II. Tea

D. • Coffee, • Tea

119. Write the Input Code:

If you want to display an image named "logo.png" with a width of 100 pixels and an alternate text "Company Logo", what HTML code would you write?

(Short Answer)

120. Which attribute is used to merge two or more table columns into a single column?

A. rowspan

B. colspan

C. span

D. merge

121. What is the correct HTML element for the largest heading?

A. <h6>

B. <heading>

C. <h1>

D. <head>

122. Which of the following is an empty (self-closing) tag?

A. <p>

B.

C.

D.

123. Analyze the Code:

html <a href="https://www.google.com" target="_blank">Google</a>

What does target="_blank"`do?

A. Opens the link in the same tab.

B. Opens the link in a new tab or window.

C. Downloads the linked file.

D. Opens the link in the parent frame.

124. Write the Input Code:

Write the HTML code to create a text input field for a user's email address that is a required field.

(Short Answer)

125. Which semantic tag is best used for a set of navigation links?

A.

B. <section>

C. <nav>

D. <header>

126. What is the purpose of the `alt` attribute in the `<img>` tag?

A. It specifies the image source URL.

B. It makes the image flash.

C. It provides alternative text if the image fails to load.

D. It defines the alignment of the image.

127. Which HTML element is used to define a description list?

A. <ul>

B. <dl>

C. <ol>

D. <list>

128. What is the difference between Block-level elements and Inline elements? Give one example of each.

(Short Answer)

129. Analyze the Code:

html <form> <input type="radio" name="gender" value="male"> Male
 <input type="radio" name="gender" value="female"> Female </form>

Why is the `name="gender"` attribute the same for both inputs?

A. To allow selecting both options.

B. It is a mistake; they should be unique.

C. To ensure only one option can be selected at a time (grouping).

D. To apply the same CSS style.

130. Which input type allows the user to select multiple options from a list?

A. Radio button

B. Checkbox

C. Text area

D. Password

131. Write the Input Code:

Write the HTML code to create a table with 2 rows and 2 columns. The first row should contain table headers "Name" and "Age".

(Short Answer)

132. What does the `<!DOCTYPE html>` declaration define?

A. It links the CSS file.

B. It defines the document type to be HTML5.

C. It is a comment.

D. It creates the body section.

133. What is the function of the <title> tag, and where must it be placed within the HTML structure?

(Short Answer)

134. Which tag is used to create a drop-down list?

A. <input type="dropdown">

B. <list>

C. <select>

D. <option-group>

135. Analyze the Code:

html

```
<video width="320" height="240" controls>
<source src="movie.mp4" type="video/mp4">
</video>
```

What is the purpose of the `controls` attribute?**

A. It automatically plays the video.

B. It adds play, pause, and volume buttons.

C. It loops the video.

D. It hides the video player.

136. Which HTML5 element is used to define a footer for a document or section?

A. <bottom>

B. <footer>

C. <section>

D. <end>

137. Write the Input Code:

Write the HTML code to create an unordered list (bulleted) with three items: "Red", "Green", "Blue".

138. Which attribute is used to specify the URL of the page the link goes to?

A. src

B. link

C. href

D. url

139. Explain the use of the <iframe> tag.

(Short Answer)

140. Which character entity is used to display a non-breaking space?

A.

B. &space;

C. &

D. <

141. Analyze the Code:

html <textarea rows="4" cols="50"> Describe yourself here... </textarea>

What does this code create?

A. A large text box for multi-line input.

B. A password field.

C. A table with 4 rows and 50 columns.

D. A read-only text field.

142. Which tag is used to define emphasized text (usually italic)?

A. <b>

B.

C.

D. <mark>

143. What is the purpose of the `<meta>` tag in the `<head>` section?

(Short Answer)

144. Which input type defines a slider control?

A. slider

B. range

C. controls

D. number

145. Write the Input Code:

Write the HTML code to display "Hello World" as a bold text using a formatting tag.

Module V - Integrate Cascading Style Sheets (Questions 146-175)

146. What does CSS stand for?

A. Creative Style Sheets

B. Computer Style Sheets

C. Cascading Style Sheets

D. Colorful Style Sheets

147. Which is the correct HTML tag for referring to an external CSS sheet?

A. <style src="mystyle.css">

B. <stylesheet>mystyle.css</stylesheet>

C. <link rel="stylesheet" type="text/css" href="mystyle.css">

D. <css>mystyle.css</css>

148. Analyze the Code:

```
css     p { color: red; text-align: center;     }
```

What will happen to the `<p>` elements?

A. The background will be red and text centered.

B. The text color will be red and aligned to the center.

C. The text will be red and bold.

D. The paragraph will have a red border.

149. Write the Input Code:

Write the CSS code to set the background color of the `<body>` to lightblue.

(Short Answer)

150. Which HTML attribute is used to define inline styles?

A. class

B. font

C. style

D. styles

151. Which property is used to change the font of an element?

A. font-weight

B. font-style

C. font-family

D. text-style

152. What is the difference between `class` and `id` selectors in CSS?

(Short Answer)

153. How do you select an element with id "demo"?

A. demo

B. .demo

C. #demo

D. *demo

154. How do you select elements with class "test"?

A. test

B. .test

C. #test

D. *test

155. Analyze the Code:

```
css     div { border: 1px solid black; padding: 25px; margin: 25px;     }
```

What is the `padding` in this context?

A. The space outside the border.

B. The space between the content and the border.

C. The thickness of the border.

D. The background color.

156. Which property controls the text size?

A. font-style

B. text-size

C. font-size

D. text-style

157. Write the Input Code:

Write a CSS rule that makes all `<h1>` elements have a bottom margin of 20 pixels.

158. What is the default value of the `position` property?

A. relative

B. fixed

C. absolute

D. static

159.Explain the CSS Box Model components (from inside out).

(Short Answer)

160. Which property is used to make the text bold?

A. font-weight: bold

B. style: bold

C. font: b

D. text-decoration: bold

161. Which property is used to change the text color of an element?

A. fgcolor

B. color

C. text-color

D. font-color

162. Analyze the Code:

```
css     a { text-decoration: none;     }
```

What is the effect of this code?

A. It removes the underline from hyperlinks.

B. It makes the link bold.

C. It changes the link color to black.

D. It removes the link functionality.

163. Which CSS property specifies the stack order of an element (which element is in front)?

A. z-index

B. position

C. stack-order

D. overlap

164. Write the Input Code:

Write the CSS to display a border like this: "10 pixels thick, solid line, green color" for a .

165. What does the `float` property do?

(Short Answer)

166. Which property is used to align text horizontally?

A. vertical-align

B. text-align

C. justify-content

D. align-items

167. How do you make a list that lists its items with squares?

A. list-type: square;

B. list-style-type: square;

C. ul-style: square;

D. type: square;

168. Analyze the Code:

```
css     body { background-image: url("paper.gif"); background-repeat: no-repeat;     }
```

What does `background-repeat: no-repeat` do?

A. It makes the image disappear.

B. It displays the image only once.

C. It repeats the image only horizontally.

D. It repeats the image only vertically.

169. Which CSS unit is relative to the font-size of the root element?

A. px

B. em

C. rem

D. %

170. Write the Input Code:

Write the CSS code to select all `<p>` elements inside a element.

171. What is the correct CSS syntax for making all the `<p>` elements bold?

A. p {text-size: bold;}

B. p {font-weight: bold;}

C. <p style="text-size: bold;">

D. p {font: bold;}

172. What is the difference between `display: none` and `visibility: hidden`?

(Short Answer)

173. Which property is used to create space between HTML elements (outside the border)?

A. spacing

B. margin

C. padding

D. border

174. Analyze the Code:

```
css     nav ul { list-style-type: none; margin: 0; padding: 0;     }
```

What is the purpose of this CSS block usually?

A. To create a table.

B. To reset default styles for a navigation menu.

C. To hide the navigation bar.

D. To make the list bold.

175. Write the Input Code:

Write the CSS to change the color of a link when you mouse over it (hover) to red.

Module VI - Apply Interactivity Using JavaScript (Questions 176-205)

176. Inside which HTML element do we put the JavaScript?

A. <js>

B. <scripting>

C. <script>

D. <javascript>

177. What is the correct syntax for referring to an external script called "app.js"?

A. <script src="app.js">

B. <script href="app.js">

C. <script name="app.js">

D. <link src="app.js">

178. Analyze the Code:

javascript var x = 10; var y = 5; var z = x + y; console.log(z);

What is the output in the console?

A. "x + y"

B. 105

C. 15

D. 50

179. Write the Input Code:

Write the JavaScript code to create a function named `myFunction` that alerts "Hello World!".

(Short Answer)

180. How do you write "Hello World" in an alert box?

A. msg("Hello World");

B. alert("Hello World");

C. msgBox("Hello World");

D. alertBox("Hello World");

181. What is the difference between `var`, `let`, and `const` in JavaScript?
(Short Answer)

182. How do you create a function in JavaScript?

A. function myFunction( )

B. function:myFunction( )

C. createMyFunction( )

D. function = myFunction( )

183. How do you call a function named "myFunction"?

A. call function myFunction( )

B. call myFunction( )

C. myFunction( )

D. execute myFunction( )

184. Analyze the Code:

javascript if (time < 20) { greeting = "Good day"; } else { greeting = "Good evening"; }

If `time` is 22, what is the value of `greeting`?

A. "Good day"

B. "Good evening"

C. undefined

D. null

185. Write the Input Code:

Write an `if` statement that executes code if the variable `i` is NOT equal to 5.

(Short Answer)

186. How does a WHILE loop start?

A. while (i <= 10)

B. while i = 1 to 10

C. while (i <= 10; i++)

D. do while i < 10

187. How does a FOR loop start?

A. for (i = 0; i <= 5)

B. for (i = 0; i <= 5; i++)

C. for i = 1 to 5

D. for (i <= 5; i++)

188. What is the Document Object Model (DOM)?

(Short Answer)

189. Which event occurs when the user clicks on an HTML element?

A. onchange

B. onmouseover

C. onmouseclick

D. onclick

190. Analyze the Code:

javascript document.getElementById("demo").innerHTML = "Hello JavaScript";

What does this code do?

A. It changes the text content of the element with id="demo".

B. It changes the style of the element with id="demo".

C. It creates a new element with id="demo".

D. It alerts "Hello JavaScript".

191. What is the correct way to write a JavaScript array?

A. var colors = (1:"red", 2:"green", 3:"blue")

B. var colors = ["red", "green", "blue"]

C. var colors = "red", "green", "blue"

D. var colors = 1 = ("red"), 2 = ("green"), 3 = ("blue")

192. Which operator is used to assign a value to a variable?

A. *

B. -

C. =

D. x

193. Write the Input Code:

Write the code to return the length of a string variable named `txt`.

(Short Answer)

194. Which operator is used to compare both value and type?

A. ==

B. =

C. ===

D. !=

195. What is the purpose of form validation in JavaScript?

(Short Answer)

196. How do you add a comment in JavaScript?

A. <!-- This is a comment -->

B. // This is a comment

C. 'This is a comment

D. * This is a comment

197. Analyze the Code:

javascript var fruits = ["Banana", "Orange", "Apple"]; fruits.push("Mango");

What is the value of `fruits` after this code executes?

A. ["Mango", "Banana", "Orange", "Apple"]

B. ["Banana", "Orange", "Apple"]

C. ["Banana", "Orange", "Apple", "Mango"]

D. ["Mango"]

198. Which built-in method converts a string to uppercase?

A. toUpperCase( )

B. toUpper( )

C. changeCase(upper)

D. uppercase( )

199. Write the Input Code:

Write a JavaScript code snippet to change the background color of the body to "yellow" using the DOM.

(Short Answer)

200. Is JavaScript case-sensitive?

A. Yes

B. No

201. Which statement is used to stop the execution of a loop?

A. stop

B. break

C. exit

D. return

202. Explain the difference between client-side and server-side validation.

(Short Answer)

203. What is the correct syntax for checking if a variable `x` is greater than 10 AND less than 20?

A. if (x > 10 or x < 20)

B. if (x > 10 && x < 20)

C. if (x > 10 & x < 20)

D. if (x > 10 || x < 20)

204. Which method is used to remove the last element from an array?

A. pop( )

B. push( )

C. shift( )

D. remove( )

205. Write the Input Code:

Write an arrow function named `add` that takes two parameters `a` and `b` and returns their sum.

(Short Answer)

Module VII - Basic Kaizen (Questions 206-235)

206. What is the meaning of the word "Kaizen"?

A. Continuous Improvement

B. Waste Management

C. Fast Production

D. Safety First

207. Where did the Kaizen philosophy originate?

A. USA

B. China

C. Japan

D. Germany

208. What is "Muda" in the context of Kaizen?
(Short Answer)

209. Which of the following is NOT one of the 5S?

A. Sort (Seiri)

B. Shine (Seiso)

C. Speed (Sokudo)

D. Sustain (Shitsuke)

210. The PDCA cycle stands for:

A. Plan, Do, Check, Act

B. Plan, Design, Check, Apply

C. Prepare, Do, Correct, Act

D. Process, Do, Check, Analyze

211. Which 5S phase involves removing unnecessary items from the workplace?

A. Set in Order

B. Sort

C. Shine

D. Standardize

212. Analyze the Scenario:

A factory worker spends 20 minutes a day looking for their tools because they are scattered everywhere. Which 5S principle is most needed here?

A. Shine

B. Sustain

C. Set in Order

D. Sort

213. Which type of waste refers to producing more than is needed?

A. Waiting

B. Overproduction

C. Defects

D. Motion

214. List the 7 types of waste (Muda) often cited in Lean manufacturing (or give at least 4).

(Short Answer)

215. What is the main goal of "Shine" (Seiso) in 5S?

A. To organize tools.

B. To inspect the workplace while cleaning.

C. To create rules.

D. To throw away trash.

216. "Standardize" (Seiketsu) focuses on:

A. Cleaning the floor.

B. Creating procedures to maintain the first three S's.

C. Sorting items.

D. Self-discipline.

217. Which term refers to waste caused by unnecessary movement of people?

A. Transportation

B. Motion

C. Waiting

D. Defects

218. How does Kaizen benefit an organization? (Short Answer)

219. What is a "Gemba Walk"?

A. A type of exercise.

B. Going to the actual place where work is done to observe.

C. A meeting in the boardroom.

D. A safety drill.

220. Which is an example of "Waiting" waste?

A. Printing more copies than needed.

B. An employee standing idle while a machine runs.

C. Moving parts from one warehouse to another.

D. Fixing a broken product.

221. Which tool is commonly used to find the root cause of a problem?

A. 5 Whys

B. Gantt Chart

C. Pie Chart

D. Budget Report

222. Matching: Match the 5S Japanese term with its English translation.

1. Seiri	A. Sustain
2. Seiton	B. Shine
3. Seiso	C. Sort
4. Seiketsu	D. Set in Order
5. Shitsuke	E. Standardize

223. The concept of "Zero Defects" is related to eliminating which type of waste?

A. Inventory

B. Defects

C. Motion

D. Over-processing

224. What does the "Sustain" (Shitsuke) phase require from employees?

(Short Answer)

225. Which visual management tool is often used in Kaizen?

A. Shadow boards for tools

B. Text-heavy manuals

C. Hidden storage

D. Locked cabinets

226. Kaizen events are typically:

A. Long-term projects lasting years.

B. Short-term, focused improvement projects (e.g., 3-5 days).

C. Social gatherings.

D. Annual performance reviews.

227. "Inventory" waste refers to:

A. Having just enough stock.

B. Storing excess raw materials or finished goods.

C. Moving goods around.

D. Broken products.

228. Analyze the Statement:

"We have always done it this way." Is this mindset compatible with Kaizen?

A. Yes, tradition is key.

B. No, Kaizen challenges the status quo for improvement.

229. Which color tag is commonly used in the Sort phase to identify unnecessary items?

A. Green Tag

B. Blue Tag

C. Red Tag

D. Yellow Tag

230. Explain the concept of "Incremental Improvement" vs "Radical Innovation".

(Short Answer)

231. What is "Over-processing"?

A. Doing more work than is necessary to add value to the product.

B. Making too many products.

C. Moving products too far.

D. Waiting for materials.

232. In the PDCA cycle, what happens during the "Act" phase?

A. The plan is executed.

B. Results are analyzed.

C. The process is standardized if successful, or adjusted.

D. The problem is identified.

233. Which is a benefit of 5S?

A. Increased clutter.

B. Improved safety and morale.

C. Higher costs.

D. Longer search times for tools.

234. What is the role of a "Quality Circle"?

(Short Answer)

235. The ultimate goal of waste elimination is to:

A. Make employees work harder.

B. Reduce the workforce.

C. Add value for the customer.

D. Increase inventory.

Matching Answers:

111. **C** (CPU -> Brain of computer)

112. **A** (URL -> Web address)

113. **B** (OS -> Manages hardware/software)

114. **D** (SSD -> Flash storage)

115. **E** (ISP -> Internet provider)

HTML Part:

116. **B**

117. **C**

118. **C**

119. `<img src="logo.png" width="100" alt="Company Logo">`

120. **B**

121. **C**

122. **B**

123. **B**

124. `<input type="email" required>`

125. **C**

126. **C**

127. **B**

128. Block-level: Starts on a new line and takes full width (e.g., `<div>`, `<p>`).

Inline: Does not start on a new line and takes only necessary width (e.g., `<span>`, `<a>`).

129. **C**

130. **B**

131.

html

```
<table>
  <tr>
    <th>Name</th>
    <th>Age</th>
  </tr>
  <tr>
    <td>Data1</td>
    <td>Data2</td>
  </tr>
</table>
```

132. **B**

133. It sets the title of the page shown in the browser tab. It must be placed inside the `<head>` section.

134. **C**

135. **B**

136. **B**

html

<ul>

  <li>Red</li>

  <li>Green</li>

  <li>Blue</li>

</ul>

138. **C**

139. It is used to embed another document (like a webpage or video) within the current HTML document.

140. **A**

141. **A**

142. **B**

143. To provide metadata about the HTML document (like character set, description, keywords, viewport settings).

144. **B**

145. `<b>Hello World</b>` or `<strong>Hello World</strong>`

CSS Part

146. **C**

147. **C**

148. **B**

149. body { background-color: lightblue; }`

150. **C**

151. **C**

152. Class** (`.`) selects multiple elements with the same class attribute. ID (`#`) selects a unique element with a specific id attribute.

153. **C**

154. **B**

155. **B**

156. **C**

157. h1 { margin-bottom: 20px; }

158. **D**

159. Content -> Padding -> Border -> Margin.

160. **A**

161. **B**

162. **A**

163. **A**

164. div { border: 10px solid green; }

165. It specifies that an element should be placed along the left or right side of its container, allowing text and inline elements to wrap around it.

166. **B**

167. **B**

168. **B**

169. **C**

170. div p { ... }

171. **B**

172. display: none` removes the element from the layout completely. `visibility: hidden hides the element but it still takes up space in the layout.

173. **B**

174. **B**

175. a:hover { color: red; }

JavaScript Part

176. **C**

177. **A**

178. **C**

179. function myFunction() { alert("Hello World!"); }

180. **B**

181. `var` is function-scoped (older). `let` is block-scoped. `const` is block-scoped and cannot be reassigned.

182. **A**

183. **C**

184. **B**

185. if (i != 5) { ... }

186. **A**

187. **B**

188. It is a programming interface for web documents that represents the page so that programs can change the document structure, style, and content.

189. **D**

190. **A**

191. **B**

192. **C**

193. txt.length

194. **C**

195. To ensure that the user input is clean, correct, and useful before sending it to the server (e.g., checking if required fields are filled).

196. **B**

197. **C**

198. **A**

199. document.body.style.backgroundColor = "yellow";

200. **A**

201. **B**

202. Client-side: Occurs in the browser before data is sent (faster user feedback).

Server-side: Occurs on the server after submission (more secure).

203. **B**

204. **A**

205. `const add = (a, b) => a + b;`

Kaizen Part

206. **A**

207. **C**

208. Waste (activities that do not add value).

209. **C** (Speed is not one of the 5S)

210. **A**

211. **B**

212. **C**

213. **B**

214. Overproduction, Waiting, Transportation, Processing (Over-processing), Inventory, Motion, Defects.

215. **B**

216. **B**

217. **B**

218. Increases efficiency, reduces waste, improves quality, boosts employee morale, and lowers costs.

219. **B**

220. **B**

221. **A**

222. 1-C 2-D 3-B 4-E 5-A

223. **B**

224. Self-discipline to follow the set standards and continuous improvement habits.

225. **A**

226. **B**

227. **B**

228. **B**

229. **C**

230. Incremental: Small, continuous steps (Kaizen).

Radical: Large, disruptive changes (Innovation).

231. **A**

232. **C**

233. **B**

234. A small group of employees who meet regularly to identify, analyze, and solve work-related problems.

235. **C**
